

## **Capital Business Solutions to Offer RenWeb Software**

**RALEIGH, North Carolina –Dec. 20, 2006** – Capital Business Solutions and RenWeb School Management Software announced today that they have formed a strategic alliance to offer a complete school administration, tuition management, and fund accounting solution for public and private schools across the United States.

Having recently partnered with Sage Software, RenWeb creates a seamless integration between Sage's MIP Fund Accounting solution and its own RenWeb School Management Software, a school administration and tuition management solution. Now schools can acquire an integrated information and financial management system from a single vendor. Capital Business Solutions.

"CBS is pleased to be able to offer our 100 plus school clients a cost effective alternative to traditional school administration systems on the market today," said Bob Schilling, VP of Sales and Marketing for Capital Business Solutions. "By deploying RenWeb software, schools can reduce overhead costs associated with internal infrastructure while maximizing their ability to externally share information with their parents and stakeholders."

### **About Capital Business Solutions**

Capital Business Solutions is a recognized leader in providing cutting edge, integrated financial software solutions and professional services purpose-built for the nonprofit and public sector. Offering clients more than thirty years of combined industry specific experience, CBS has successfully implemented more than 350 clients in 9 years of operation.

CBS offers in-depth needs analysis, business process consulting, software implementation, training and ongoing support. In addition, custom development offerings include integrations with grant-making software, higher education admissions software, human resource and billing software.

### **About RenWeb School Management Software**

RenWeb School Management Software is the leading provider of next generation internet-based school management software. RenWeb's powerful system uses the web to automate the flow of information between school administration, the classroom and home from a single integrated database. Founded by a University Dean eight years ago, RenWeb is leading the Internet migration as schools convert from their client/server software to a web-based solution, driving RenWeb's sales of more than one new school per day. RenWeb's integrated feature set includes Admissions, Enrollment, Scheduling, Billing and Tuition Management, Lunchroom Management, Health Management, Attendance, Homework, Lesson Plans, Gradebook, Report Cards, Transcripts,

Extensive Reporting Capabilities, Automated Emailing and ParentsWeb – all in one database, accessible anytime, from anywhere, via the web.
